Remuneration Report 2023

Passion for Salmon

www.salmar.no

About the Report

The objective of the senior executives' remuneration report is to enhance transparency around the organization's compensation strategy and executive pay, while also elucidating the connection between executive compensation and the fulfillment of the company's strategic goals.

This report outlines the remuneration received by the members of the Board of Directors and executive management team in SalMar ASA for the financial year of 2023. It is crafted in alignment with the provisions of the Public Limited Liability Companies section 6-16b and pursuant to the guidelines defined in section 6-16a.

The report meets the requirements set out in the «Regulations on guidelines and the report on remuneration for senior executives». The report also satisfies requirements for note information in the annual accounts pursuant to the Norwegian Accounting Act section 7-31b and 7-32.

In compliance with section 6-16b (2) of the Norwegian Public Limited Companies Act, the statement is scheduled for presentation at the 2024 Annual General Meeting (AGM), where it will be subjected to an advisory vote.

From the Chair of the Board of Directors and CEO in SalMar ASA

2023 – A Strong Year for SalMar

An industrial powerhouse emerged in 2023 when NTS, NRS and SalmoNor were successfully integrated into SalMar after the completion of the transactions at the end of 2022. Over the past year, we have built a strong and solid community, from which the company will reap great benefits in the near and long term. Thereby strengthening our position in the best areas for salmon farming and positioning SalMar firmly as a leading company in the industry as the second largest salmon producer in the world.

The company posted record high harvest volume and strong annual in 2023. Gross operating revenues in 2023 were NOK 28.2 billion, compared with NOK 21.1 billion the previous year. Operational EBIT was NOK 8 billion, compared with 4.5 billion in 2022. These results represent good underlying operations and the ability to achieve the productivity improvements we expected from the transactions with NTS, NRS and SalmoNor. The results also reflect strong markets with good price achievement and a consistently weak Norwegian krone (NOK) through the year.

Board of directors

In 2023, the composition of the Board of Directors changed two times – reference is made to the AGM, June $8^{\rm th}$ 2023.

- The Board Members Margrethe Hauge and Leif Inge Nordhammer, were both reelected for a term of two years.
- In addition, two new employee representatives joined the Board of Directors, Ingvild Kindlihagen and Hans Stølan, replacing the former two employee representatives.

Executive Management Team (EMT)

There were no changes to the executive management team in 2023.

Summary of Key Disclosures

SalMar's Remuneration Report provides full disclosures of the company's remuneration decisions relating to the Board of Directors and the Executive Management Team ("leading persons") as well as the related business context.

A summary of these disclosures as they relate to the Chair of the Board of Directors, the members of the Board of Directors, the CEO and the Executive Management Team is provided to the right.

The total remuneration to members of the current EMT increased in October 2022 because of changes in positions with expanded responsibilities and entry into the EMT. In addition, a general percentage increase equivalent to all others in SalMar. A significant increase in the stock price has resulted in an increased value of the long-term incentive program from 2022 to 2023. The numbers for 2022 includes renumeration for current members of the EMT also from the period before entering the EMT.

Total remuneration including current, former and earlier EMT and additional extraordinary items has however decreased significantly from 2022 to 2023 as there were no changes to the EMT in 2023. Further details on page 13 in this report.

Remuneration of the Chair and the members of the Board of Directors

The Chair and the members of the Board of Directors receive a fixed annual base fee and are not eligible for any form of variable remuneration, pension and other benefits.

Audited (NOK 1,000)	2023	2022	2021
Gustav Witzøe Chair (from June 8th 2022)	545	260	-
Board of Directors ¹	2 338	1 992	1 973

Remuneration of the CEO

The remuneration of the CEO consists of fixed remuneration (base salary and benefits), short-term incentive (STI) and long-term incentive program (LTI).

Audited (NOK 1,000)		2023	2022	2021
	Total fixed ²	4 762	2 804	-
Frode Arntsen Chief Executive Officer	Short-term incentive program	850	750	-
	Long term incentive program	1 145	765	-
Total		6 757	4 319	-

Remuneration of the current Executive Management Team (including the CEO)

The remuneration of members of the EMT consists of fixed remuneration (base salary, pension and benefits) and variable remuneration (STI and LTI).

Audited (NOK 1,000)		2023	2022	2021
Current EMT	Total fixed ³	18 797	13 731	11 840
	Short-term incentive program ⁴	4 850	3 995	2 600
	Long term incentive program	5 317	3 917	5 873
Total		28 964	21 643	20 313

¹The total is based on annual base fee for Chair, members of the board and fees related to being a part of the Audit and Risk Committee.

² Includes salary, benefits in-kind and periodized pension costs. Note that it also includes paid holiday pay. Holiday pay is incorporated as part of all the calculations where relevant for fixed remuneration in this report.

³ Includes salary, benefits in-kind and periodised pension costs.

⁴ Excludes severance payment and extraordinary remunerations related to sign-on or severance.

Remuneration Principles and Framework

The Remuneration of the Board of Directors and the EMT for the financial year of 2023 was determined in accordance with the Group's Remuneration Policy. The Remuneration Policy sets the framework for the remuneration at SalMar ASA and applies to all the Group's employees.

As seen in the table to the right, the company's senior executive remuneration policy is based on the principles as those set out in SalMars Remuneration Policy. On the basis of these principles, the Board has drawn up the following guidelines for the remuneration of senior executives.

Remuneration Policy

The Remuneration Policy lays down and ensures an appropriate total remuneration package that has a clear link to the business strategy and aligns with shareholders interests. In this context, the Remuneration Policy contributes towards promoting the Group's objectives for good corporate governance as well as sustained and long-term value creation for shareholders.

Once a year, the Remuneration Policy is reviewed and adjusted, as required, to reflect changes in regulatory requirements, expectations of shareholders and the Group's strategic priorities. The Group's general remuneration model for all employees is revisited and approved annually by the Board.

The current Remuneration Policy and guidelines was approved at the Annual General Meeting of Shareholders (AGM) on June 8th 2021 and will apply until the AGM meeting in 2025. The Remuneration Policy is available on our website.

Corporate Governance

Corporate Governance Key remuneration decisions are made by the Board of Directors. The Board shall determine the salary and other benefits payable to the Group's CEO. The Group's CEO determines the salaries and other benefits payable to other senior executives.

The Board shall exercise general oversight of the remuneration paid to senior executives and may adopt more specific guidelines if necessary. If the Group's CEO wishes to offer remuneration to senior executives that exceeds such more specific guidelines, a proposal therefore, shall be submitted to the Board for its approval.

The external auditor shall verify that the remuneration arrangements provided to senior executives are practiced in accordance with the guidelines approved by the AGM.

Description of EMT remuneration components

Components	Description
Base Salary	Is set and reviewed by the Board of Directors on an annual basis.
Pension	 Senior executives participate in the Group's general pension scheme. The scheme is a defined.contribution plan and lies within the framework. Senior executives participate in a group defined-contribution pension scheme, the basis for which is restricted to 12G (where G is the Norwegian National Insurance Scheme's basic unit of calculation).
Benefits in-kind	 Personal and travel insurance. Company car, payment is based on an assessment of specific needs. Paid mobile phone.
Short-term Incentive Program (STI)	 Variable salary increments under the scheme may not exceed 33 per cent of the individual executive's base salary. Awarded once a year, with the value based on KPI performance for the year. Individual bonuses are determined on the basis of an overall assessment of contribution, performance, development and results achieved. The individual's goals (KPI) are goals which support the company's strategy and sub-targets. Upon settlement, 100% is paid in cash.
Long-term Incentive Program (LTI)	 100% share-based. The executive may be awarded share entitlements worth no more than 6 months' salary. Accrual of 2/3 of the entitlements depends on the achievement of predefined performance criteria based on value creation through the year, measured by developments in the share price compared with peer companies, as well as earnings through the year, measured against those achieved by peer companies. The value of the shares released under the various programs in an individual year may not exceed one full year's salary.
Notice and severance pay	• In principle, senior executives must serve a 6-month period of notice. In selected cases, and depending on the position, severance pay of 6 to 12 months may be paid.

The figure below shows the summary of the executive remuneration for 2023 broken down by fixed and variable remuneration components.

Fixed remuneration

Variable remuneration

Variable Remuneration

This section provides further information on the variable remuneration of the EMT. SalMar uses performance-based variable remuneration to motivate specific behavior and performance and ensure alignment with shareholder interests.

A balance of short- and long-term incentives is applied. Short-term incentives reflect the performance of the year against agreed targets, with long-term incentives is used to ensure alignment with shareholder interests on a longer time horizon.

Short term incentives (STI)

The Board conducts a yearly evaluation of the scheme and sets the criteria for bonuses for the upcoming year. The STI awards for members of the EMT is based on a performance contract (a "balanced scorecard") of performance measures, with targets set at the beginning of the performance year. Individual bonuses are determined on the basis of an overall assessment of contribution, performance, development and results achieved. The individual's goals are goals which support the company's strategy and sub-targets. Goals and performance metrics are tailored to each business unit yet strategically designed and aligned across them, ensuring the company's collective objectives are optimally achieved.

The company strongly believes that the key to world class performance is a strong culture driven by passion for salmon as a fundamental core value. This mindset, which places the interest of the biology and the well-being of the salmon first, is embedded in our strategic framework and throughout the organization and everyday operations.

Each performance contract of the EMT is built on these principles and includes both financial/operational (70%) and non-financial (30%) measures. See page 8 for full description of KPIs for variable remuneration and actual goal achievement. Each KPI corresponds with STI remuneration. The measures are closely aligned with our ambition: Becoming the world's best aquaculture company.

Note that each manager must have KPIs related to ESG and HSE (minimum 30%). The performance criteria within these areas can both be placed in the financial or non-financial category.

Annually, the Board of Directors conducts a review to ensure that the STI measures for the year align with the long-term goals and that the annual targets present a meaningful challenge within the context of SalMar's strategy.

The performance of each Executive Manager is monitored semi-annually. After the first six months and at the end of the year, the KPIs are evaluated against the given targets. A specific evaluation is performed at the close of the year to determine the level of realization with respect to the various goals that have been defined for the executive manager at the start of the year. Assessment of the individual performance of each member of the EMT is considered and endorsed by both the CEO and Chair of the board on behalf of the Board of Directors.

Long term incentives (LTI)

The LTI is a share-based program, the objective being to work alongside the annual STI to balance the incentives of the members of the EMT between the short- and long-term ambitions and to align their interests with the interests of shareholders and other stakeholders.

The awards are granted subject to performance over a three-year period, of which 1/3 is earned each year. A prerequisite for earning shares is that you remain employed in a position or change to another position that entitles you to being part of the program and have not been dismissed from your position until the date of earning. The number of shares earned depends on the Performance Terms as defined in the Allocation Agreement, and on the 1/3 that can be earned each year:

- 1/3 is earned regardless of Performance Terms
- 1/3 is earned if EBIT / kg Performance condition is met
- 1/3 is earned if Relative Total Shareholder Return (TSR) Performance Condition is achieved

Earned shares will be released and transferred to the individuals entitled as ordinary SalMar shares on the Release Date. The release date for earned RSUs will be the first trading day on the Oslo Stock Exchange after the forthcoming announcement of quarterly results after the Earning Period.

Long term incentives (LTI) - visualization The table to the right presents a visualization of an allocation from the LTIprogram in 2023.

As presented in the table, the earnings take place in 3 tranches. Within each tranche, earnings of 1/3 are independent of the Performance Condition and 2/3 are dependent on the Performance Conditions. Actual Release Date is after presentation of 03 financial results.

KPIs for variable remuneration and actual goal achievement Each KPI corresponds with STI remuneration. All targets are stretched and no incentive is earned until performance is close to target. Above target performance is achievable but challenging.

As stated in the introduction, 2023 has been a year where SalMar has undergone several major changes, mainly due to the successful integrations of NTS, NRS and SalmoNor into SalMar. The integration with all its implications and non-controllable external factors was to be handled by the EMT-group without affecting daily operations. This includes different processes related to preparing and implementing the complex merger, while at the same time start a process of integration to ensure the realization of the effects and synergies of the acquisition.

The financial and non-financial categories are subdivided with performance criteria specially adjusted for each business area. The criteria have individual weighting which in turn has an individual score that builds on the total score for category (70/30). The totality of the performance score card model is complex, the compilation of the performance criteria shown below gives a summarized overview which frames and encompasses the performance criterion across the business units.

For 2023, the following goal achievement was used as a basis for allocating variable remuneration to management (STI). The table below also includes total performance result range in the EMT-group.

The basis of performance assessment and criteria related to allocating variable remuneration (STI)

Type of performance criteria	Description of performance criteria	Relative weighting	Goal achievement EMT
Financial (operational)	 Cost reducing/controlling measures Operational Excellence Optimizing everyday work life Sustainability (ESG/HSE) 	70%	
Non-financial	 Optimizing everyday work life Building culture, enthusiasm and commitment Personal and leadership development Sustainability (ESG/HSE) 	30 %	55-100 %

Remuneration of the Board of Directors

The Board of Directors consists of seven members of the board, of which two are members elected by employees.

The fees payable to members of the board are determined annually by the AGM at the recommendation of the company's Nomination Committee. Members receive a fixed fee, and no member shall participate in any incentive scheme or receive any performance-related remuneration.

In connection with its recommendation, with respect to director's fees, the Nomination Committee will look to developments in the market, as well as the scope of work, complexity and effort that the elected officer is expected to devote to the task.

Employee representatives serving on the Board of Directors receive 50 per cent of the director's fee paid to the shareholder-elected board members. This reflects that employee representatives are concurrently compensated with a full-time salary by the company for their dedicated roles.

Board of Directors fees for the financial year of 2023 are presented in the table to the right. The fee structure is assessed once a year.

Remuneration paid to each member of the Board of Directors in 2023, including fees related to positions in the Audit and Risk Committee. Paid remuneration for 2022 is outlined in a separate table beneath.

⁵ The table includes Nomination Committee remuneration for a full overview of board fees, ensuring transparency as reported. However, these fees are not detailed further.
 ⁶ As a member of the Audit and Risk Committee, Morten Loktu received payment for the period january 2023 – june 2024, in 2023.
 ⁷ Total sum remuneration listed from both positions.

Remuneration of the Executive Management Team

The Executive Management Team (EMT) of 2023 consists of seven members, consistent with the previous year. The remuneration policy for the members of the EMT is based on principles pertaining to market price, scope, complexity and character of responsibilities, credentials and individual performance. The remuneration should be both competitive and motivating, to attract and retain key personnel with the necessary expertise and competence.

Any proposals for adjusting remuneration components for members of the EMT will require approval from the Board of Directors. Members of the EMT receive remuneration in alignment with the Group's remuneration policy. They do not receive remuneration from responsibilities related to other entities of the Group, no separate remuneration is payable for work on the boards of directors of subsidiaries. The Group's remuneration guidelines for senior officers are grounded in the principles outlined in the Remuneration Policy.

As previously mentioned, the total remuneration to members of the current EMT increased in October 2022 due to changes in positions with expanded responsibilities and entry into the EMT. In addition, a general percentage increase equivalent to all others in SalMar. A significant increase in the stock price has resulted in an increased value of the long-term incentive program from 2022 to 2023. The numbers for 2022 include remuneration for current members of the EMT also from the period before entering the EMT.

⁸ The Fixed Remuneration reflects changes in context of salary adjustments and change of position, including increased responsibility, complexity and scope within the roles as described on page 5.

⁹ Pension for Simon Søbstad is a result of an internal transfer to SalMar ASA*, which includes accumulation of pension.

¹⁰ The numbers for 2022 includes renumeration for current members of the EMT also from the period before entering the EMT.

Share-based remuneration and shareholding

An overview of SalMars shares held by the Board of Directors and the EMT is provided in the annual report. The table below presents the outstanding share awards held by all members of the EMT.

Back testing and Claw back

In 2023, no incidents have been identified that have given reason for the unpaid fixed variable remuneration to the managers to have been reduced as a result of subsequent results and developments indicating that the original allocation was based on incorrect assumptions.

¹² Fixed remuneration elements are annualized in the presented figures on change in remuneration. The individual remuneration figures are adjusted to exclude severance payment and extraordinary renumerations connected to sign-on or severance, where applicable. Extraordinary items are presented in total per year. Presented changes in total remuneration are calculated on a per person basis. Atypical variations in yearly change is caused by changes in variable remuneration as part of participation in EMT and substitutions and make-up of the groups. Note in relation to LTI that new EMT members after three years are part of 3 tranches where the awards are granted subject to performance over a three-year period, of which 1/3 is earned each year in accordance to performance terms. See details regarding LTI-program in report.

To the General Meeting of SalMar ASA

INDEPENDENT AUDITOR'S ASSURANCE REPORT ON REPORT ON SALARY AND OTHER REMUNERATION TO DIRECTORS

Opinion

We have performed an assurance engagement to obtain reasonable assurance that SalMar ASA's report on salary and other remuneration to directors (the remuneration report) for the financial year ended 31. December 2023 has been prepared in accordance with section 6-16 b of the Norwegian Public Limited Liability Companies Act and the accompanying regulation.

In our opinion, the remuneration report has been prepared, in all material respects, in accordance with section 6-16 b of the Norwegian Public Limited Liability Companies Act and the accompanying regulation.

Board of directors' responsibilities

The board of directors is responsible for the preparation of the remuneration report and that it contains the information required in section 6-16 b of the Norwegian Public Limited Liability Companies Act and the accompanying regulation and for such internal control as the board of directors determines is necessary for the preparation of a remuneration report that is free from material misstatements, whether due to fraud or error.

Our independence and quality control

We are independent of the company as required by laws and regulations and the International Ethics Standards Board for Accountants' Code of International Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with these requirements. The firm applies International Standard on Quality Management, which requires the firm to design, implement and operate a system of quality management including policies or procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Auditor's responsibilities

Our responsibility is to express an opinion on whether the remuneration report contains the information required in section 6-16 b of the Norwegian Public Limited Liability Companies Act and the accompanying regulation and that the information in the remuneration report is free from material misstatements. We conducted our work in accordance with the International Standard for Assurance Engagements (ISAE) 3000 – "Assurance engagements other than audits or reviews of historical financial information".

We obtained an understanding of the remuneration policy approved by the general meeting. Our procedures included obtaining an understanding of the internal control relevant to the preparation of the remuneration report in order to design procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control. Further we performed procedures to ensure completeness and accuracy of the information provided in the remuneration report, including whether it contains the information required by the law and accompanying regulation. We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Trondheim, 18 April 2024 Ernst & Young AS
